

AI-Enabled eLearning

Innovation at your doorstep!

Empower your Learning & Development (L&D) with AIReady – a secure, scalable, and easy-to-integrate solution that enhances your existing eLearning modules using the power of Generative AI while giving you full instructional control.

Why AIReady?

- ✔ **Seamless Integration:** Plug-and-play compatibility with your existing LMS and tools.
- ✔ **Diverse Learning Activities:** From AI-driven feedback and roleplays to just-in-time Q&A and rubric-based auto-assessments.
- ✔ **Secure Middleware:** Acts as a shield between your LMS and OpenAI, ensuring data privacy and simplified integration.
- ✔ **Retrieval Augmented Generation:** Enhance AI contextuality with company-specific document references.

Artha Learning makes it possible to bring AI-enhanced eLearning to your organization. Use our easily customizable widget and stay on the cutting edge of innovation with the latest in AI Technology integrated right within your eLearning modules.

Ask us how!

Some Use Cases

- ✔ Just-in-time enhanced learning: **Ask an AI expert** while in an eLearning course
- ✔ Collaborative, yet self-paced Learning: **Role play with AI**
- ✔ Realistic Assessment and Feedback: use **open text responses**
- ✔ Practice Interpersonal Skills: use **creative scenarios with AI**
- ✔ Have AI provide **on-demand translation in any language**
- ✔ And so much more. Limited only by your imagination!

Your Data. Your Rules.

AIReady is built with enterprise-grade security and privacy features, ensuring your AI integrations remain compliant, secure, and fully under your control.

Key Security Features

- ✔ **No AI Training on Your Data**
Your prompts and responses are never used to train the AI.
- ✔ **Anonymized Logging**
Keep your learners' identities private.
- ✔ **Optional Data Reporting**
You choose whether to retain data for insights and reporting.
- ✔ **US-Based Hosting**
All data is stored and processed within the United States.

FAQs

Is AIReady secure?

Yes. AIReady is built on enterprise-grade infrastructure. All data is encrypted in transit and at rest, and stored within the U.S.

What tools and LMSs are supported?

AIReady works with most LMSs and integrates smoothly with authoring tools like Articulate Storyline and Adobe Captivate.

Can I use AIReady with company-specific content?

Based on your subscription tier, you can securely upload documents and have the AI reference them while responding.

Is it easy to get started?

Yes. AIReady is designed for non-technical users. With minimal setup, instructional designers can embed and configure AI features. You can also use AIReady Studio to generate your activities in a code-free way.
